### Children's progress

Thank you for accessing and interacting with the home learning that has been provided. We appreciate the challenges that have been involved. The teachers will informally assess the children as they do normally to identify any gaps and their next steps for learning. This will be in terms of academic progress but also in terms of their wellbeing and social, emotional and mental health. The local authority will continue to guide how the curriculum progresses ensuring that children's education remains a priority. There will be an opportunity to discuss your child's progress at parents evening on the 30<sup>th</sup> and 31<sup>st</sup> March.
