

Sports Premium at Kings Copse (April 2018 – April 2019)

Basis of allocation

Allocations for the academic year 2018/19 are calculated using the number of pupils in Years 1 to 6, and those age 5 in Year R, as recorded on January 2013 Census, as follows:

- Schools with 17 or more eligible pupils receive £8,000 plus £5 per eligible pupil; and
- Schools with 16 or fewer eligible pupils receive £500 per eligible pupil

Therefore, Kings Copse has received **£7,400** in this round of funding. There was also a carry over of £10,300 and so the total to spend is £17,700.

Sports Premium Allocation and Impact, 2018 – 2019

Sports Premium used for:	Amount allocated to the intervention / action (£)	Brief summary of the intervention or action, including details of year groups and pupils involved, and the timescale	Specific intended outcomes: how will this intervention or action improve the provision and PE and sport? What will it achieve if successful?	Actual impact: What did the action or activity actually achieve? Be specific: 'As a result of this action...' If you plan to repeat this activity, what would you change to improve it next time?
Employ a specialist PE coach.	£10,200	Employ a specialist PE coach to work alongside teachers in lessons to develop their subject knowledge and confidence in PE. The coach works 1 ½ days a week to ensure all classes are supported across the school.	Children will receive high quality PE provision from a coach. The coach is working alongside staff in developing a skills based approach to PE through different sports. Teachers are developing a greater PE subject knowledge and a deeper understanding of how to develop skills successfully.	Children are receiving high quality coaching and developing a wealth of skills. The staff's confidence and subject knowledge surrounding the teaching of PE is continually increasing as a result of working alongside the coach in a scheme of lessons – this knowledge can also be applied to other areas of the PE curriculum. The coach is also developing lesson plans for teachers to use and apply to other sports. The PE coach has also developed his skills base (as requested by the school) and has also lead gymnastic schemes of work with teachers – this is an area that they requested guidance in. As a result, the teachers' knowledge and understanding of successful gymnastics teaching has improved.

		<p>Another role of the coach will be to support the sports crew to run additional lunchtime clubs for less active children across the school.</p> <p>The PE coach will run an after school sports club for years 4, 5 and 6 throughout Autumn and Spring 2017.</p> <p>The coach will run a multi-skills club for KS1 and Y3 during the summer term.</p>	<p>The lunchtime club will support and engage the least active children through new sports clubs during the school day. The sports crew will also benefit from coaching focused on how to teach others and run their own sports club.</p> <p>Children will receive high quality football coaching and potentially inspire them to join local clubs and participate in more sport outside school. The coach will also attend matches with the team to ensure their participation in intra-school competitions.</p> <p>Children are given the opportunity to take part in more activity outside the school day. The younger children have been targeted to encourage a healthy lifestyle from a younger age group.</p>	<p>More children have been taking part in lunchtime clubs. Sports crew have taken ownership of the club (under the guidance of the PE coach) and have developed their leadership skills. They will also be training the next sports crew (current Y5 children).</p> <p>More children are attending the football club and their performance has improved as a result. Their performances in after school matches improved.</p>
Swimming curriculum enhancement for Y3 children	£1,000	Y3 children will attend swimming sessions (as an extra to the statutory swimming sessions which our Year Five children receive).	Children's swimming ability improves greatly by given extra swimming sessions in Year 3. They will be more successful in their Year 5 statutory sessions, as they will have developed their initial swimming skills in Year 3.	
Sports equipment purchased to enhance provision	£236	New sports equipment was purchased including new footballs and plastic hockey sticks for KS1 children to use.	Children will have access to better quality equipment and more children will be able to take an active role in lessons due to more equipment available. The quality of lessons will be improved as a result.	The hockey sticks in particular have helped KS1 children develop their skills and their confidence has improved. The footballs have been used during lunchtime to encourage activity and during the football club after school.

Lunchtime sports equipment	£150	Sport and games equipment was bought for use at lunchtimes.	The aim of purchasing new sporting equipment is to increase activity at lunchtime to ensure all children are active.	As a result, more children have been active during lunchtimes. It has also encouraged children to create and play games with their peers, teaching them the sportsmanship and teambuilding skills which are crucial for team sports.
Balanceability bikes and rack	£1,666	New balance bikes have been bought for use in Early Years.	Balance bikes are being used by Year R children to encourage them to be active. It is hoped this will help them to learn essential skills needed to ride a bike.
